

Component	Criteria	Excellent (5)	Good (4)	Fair (3)
Functionality	App runs correctly	No errors, smooth performance	Minor issues	Some errors
Numerical Method	Correct implementation (e.g., Newton, Interpolation, etc.)	Fully correct with explanation	Minor errors	Partially correct
User Interface (UI)	Layout and usability	Clean, intuitive, user-friendly	Mostly clear	Some confusion
Input & Output Handling	User inputs and displayed results	Flexible inputs, clear outputs	Minor issues	Limited input/output
Visualization	Graphs/plots (if applicable)	Clear, labeled, meaningful	Adequate	Poor labeling
Code Quality	Organization and readability	Clean, well-commented	Mostly clean	Messy
Explanation/Documentation	Description of method and app	Clear and complete	Mostly clear	Limited
Presentation/Demo	Demo and explanation	Confident, clear	Minor issues	Some confusion
TOTAL				

Poor (2–1)	Points	Weight	%
Not working	5	0.20	20%
Incorrect	5	0.20	20%
Poor design	5	0.15	15%
Not functional	5	0.15	15%
No visualization	5	0.10	10%
Hard to read	5	0.10	10%
Missing	5	0.05	5%
Cannot explain	5	0.05	5%
	40	1.00	100%
